S'PRINT-BT is the mobile printer for professional applications. Extremely small size and light weight. Automatic paper loading via patented "Sixload" system Complete with end of paper and black mark sensor, the printer supports an upgradable client logo and prints the most common barcodes: EAN 13, EAN 8, CODE 39, ITF, CODABAR.

S'PRINT-BT prints in a "wireless" manner at high speed and without needing to align itself to a printer, thanks to wireless Bluetooth® technology.

It is powered by battery with a RS232 serial interface and Bluetooth® technology.

The profiles supported are SPP (Serial Port Profile) through which it is possible to match a RS232 or OPP (Object Push Profile) serial connection which allows printing of vCard format items (business cards).

S'PRINT printers are ideal for "wireless" applications, combined with PDA, lap top computers and cellular telephones.

PHONE 2 PRINT: simple system for the remote printing of SMS messages on **S'print BT**.

PRINT FROM PDA:

With **S'print** you can print text and graphics from all Palm Powered products thanks to the free application, PalmO-Sprint.

Moreover, a set printing settings, with relative use manuals is available upon request, to allow the development of your personal printing application.

The platforms supported are PalmOS and Microsoft Pocket PC 2002/2003.

ACCESSORIES:

- Handy hook for fastening to operator's belt
- Elegant and resistant anti- collision case
- A special thermal film roll is also available, which is weather-resistant and especially suited to applications where the document printed will be exposed to the elements (fines, delivery slips, etc.)
