- *Mixed Denomination Counting*
- *Non-Stop Counting with Reject Pocket*
- *Dual Operability between Two Persons*
- *Solution for Bank Branches, CIT Companies, Casinos, Retail Stores etc.*

# GLORY's New Flagship Banknote Value Counter

## Why GFR?

Unlike the conventional value counter, or the size detector of banknotes, GFR's function to analyze characteristics of each banknote has various advantages.

- Reduce mis-discrimination often caused by size detection.
- Recognition of characteristics of banknotes enhances accuracy in authenticating counterfeit or forged banknotes.

## Other Features

- Non-Stop Continuous Operation
- Operable by two persons interchangeably, with each counted data stored independently, and transferrable to each independent PC subject to availability of interface developed by customers.
- Authenticating function strengthened by new IR/UV/MG sensors <sup>\*</sup>(GFR-220 only)
- Faces and Orients banknotes (GFR-220 only)
- Dust collection via Special Tray and Halls (GFR-220 only)
- Improved Feeding Mechanism

GFR-220 "Non-Stop Operation" is now improved by larger capacity of Reject Pocket.

MODE	FUNCTION
MIX	Totals the Amount in Mixed Denomination
DD	Sort-out Different Denominations
COUNT	Counts by Pieces

## Specifications
