

MAIN FEATURES

Unlimited number of currencies displayed

Display as many currencies and multiple types of rates (Buy and Sell: Banknotes, T/C, T/T).

Integrated multimedia advertising

Advertise and display your marketing information in a variety of different multimedia formats.

Modern design & flexible layout

Enhance your corporate image with attractive display suited to your business requirements.

Flexible hardware option

Use existing hardware or source them from your preferred vendor as **SMARTFOREX®** is compatible with any LCD size, brand or model.

Convenient rate updating

Easily update rate content via USB, Wireless keyboard or remotely via the **SMARTFOREX®** web application, allowing to update ONE or all branches from the same location.

Special rate currency promotion

Visually highlight on-sale rates and bulk transactions.

ADDITIONAL OPTION

Integration capabilities with the currency exchange system

Automatic real-time or scheduled data updates without the need for human intervention.

Multiple system configuration options

The system can be set up in standalone, LAN or WAN (centralised) configuration.

RSS feeds display

Provide your customers with useful information, news and weather reports.

Conventional rate board is inflexible due to its fixed design and limited number of currency display; design changes requires a new rate board. It is inefficient requiring manual rate updates.

SMARTFOREX®

Multimedia Forex Display Solution

- » Introduce innovation into your business and reap the rewards of clever design for as little as **\$3 per day**.
- » Internal and external paid advertising **shortens ROI**.
